QUALIFICATION SYSTEM – YOUTH OLYMPIC GAMES BUENOS AIRES 2018

All 104 participants are first separated by gender, and then they are sorted by their actual weight recorded during weigh-in, in ascending order. These two (2) groups of men and women are then each split into four (4) weight groups to make a total of eight (8) weight groups. Drawing one (1) athlete from each of these eight (8) weight groups will make a maximum of 13 multinational teams. In order to ensure a balance in the levels across all teams, the IJF may take into consideration the results in the distribution. All athletes are to participate in the team event. In case of injury or illness, a medical certificate is to be presented not later than 17:00 the day before the team event. Countries with two (2) qualified athletes will be seeded and drawn first so that no NOC will have two (2) competitors on the same team. In case a team is composed of less than eight (8) judoka the vacant category will not be counted and taken as a draw when this team of seven (7) meets another of eight (8) competitors. This does not apply to the case where an athlete is injured after the team starts competing.
